

COUNTY OF LOS ANGELES SCHOOL WAIVER APPLICATION FOR GRADES TK – 2 IN-PERSON EDUCATION COVER SHEET

Full Name of School Requesting Waiver:

School Type:

Date of Submission:

School District Superintendent or School Head Administrator Name:

Phone:

Email:

Address:

City:

Zip:

School District Where Your School is Located:

Estimated total number of students that will return for in classroom instruction per grade (if none, enter 0):

TK: _____

K: _____

1: _____

2: _____

Estimated total number of administrators, teachers, and other employees that will be returning to support resumption of in classroom instruction for grades TK - 2:

Anticipated total number of cohorts returning: _____

Anticipated mode of attendance for In-classroom instruction:

Percent of student body who qualify for Free Or Reduced-Priced Meals: _____

URL where re-opening protocols are posted: _____

Supporting materials to include with this cover sheet:

- Letter from district superintendent or head administrator for private/charter school requesting this waiver.
- Letters of support from the following groups:
 - All labor unions representing employees at the school reopening for classroom instruction (**REQUIRED**). If school employees are not represented by a union, a letter from other organizations representing teachers/staff **OR** a letter signed by majority of teachers/staff must be submitted.
 - Parent organization(s) at the school reopening for classroom instruction. (**REQUIRED**)
 - Community organization(s) that provide services for students and their families who attend the school reopening for classroom instruction. (RECOMMENDED)
- A completed Los Angeles County Department of Public Health [K-12 School re-opening protocol checklist](#).

By checking these boxes, I attest:

- Our district/school has obtained sufficient and appropriate personal protective equipment (PPE), as defined by the reopening protocols and California Department of Public health guidance, for all teachers and staff who will be involved in in-person instruction.
- A plan or protocol has been developed for incorporating surveillance testing into regular school operations of all school personnel which describes the strategy for ensuring access to periodic testing for all school personnel to be implemented when instructed by the Department of Public Health based on local disease trends and/or after resolution of an outbreak at the school.
- I am aware that this form and all supporting documents will be posted publicly on the Los Angeles County Department of Public Health website.

EMAIL THIS COMPLETED COVER SHEET AND ALL SUPPORTING MATERIALS TO SchoolwaiversC19@ph.lacounty.gov.

Hello,

We are an extremely small micro school with only 21 students total in grades k-12. We only have 3 teachers including myself interacting with our students. We don't have any outside community organizations working with us- such as after school programs, enrichment programs, or other sports organizations. We do rent our space from the Venice United Methodist Church- and we have been in constant contact with them from the beginning of working towards our school reopening. We talk with the church and pastor weekly regarding our re-opening, building use, and how we can work together to provide the safest space. We have provided our reopening protocols to them and will continue to work closely with them regarding space and best practices as we all move forward together. Our last update with church staff was yesterday, Oct, 29th, 2020.

Please let me know if you have any questions.

Thank you,
Dani Foltz-Smith

Acton Academy Venice Beach
www.actonvenice.org
312-498-9872

Hello,

My name is Dani Foltz-Smith, and I am writing today to request the waiver for in person learning at our small micro-school- Acton Academy Venice Beach.

We have a total of 21 students and only 6 in the k-2 age group. We have 3 staff members including myself. We have four dedicated studios we can use for in-person learning as well as a large outdoor space. Our plan is to do at least 95% of our days outside under large pop-up tents with small, individual tables and chairs.

We have implemented all the safety protocols in the checklist and have the support of our community. Of course, we will be offering a virtual program for those families who are not comfortable returning to in-person learning at this time.

Due to our small size, we are easily able to implement sanitizing protocols, enforcement of mask wearing and social distancing, and contact tracing. We can conduct temperature checks onsite as well as the health survey. We have a testing plan in place as well as a reporting protocol. In addition, we have a task force made up of parents, guides (teachers), and community members helping to ensure we bring students back in the safest way possible.

We look forward to working with you to bring our small group back together in the safest way possible.

Sincerely,
Dani Foltz-Smith

Acton Academy Venice Beach- Head of School and Lead Guide
www.actonvenice.org
312-498-9872

To whom it may concern:

We write to you as parents and collectively as the Acton Academy Venice Beach Re-Opening Task Force. We, the undersigned, write to you in support of the re-opening of Acton Academy Venice Beach. We have all contributed to an extensive plan with protocols that reflect those from the CDC, WHO and LADPH. We are confident in the school's ability to adhere to the guidelines and as parents we will work as a community with the school to ensure that our children are safe, even as the pandemic continues.

We thank you for your consideration. Should you need any further documentation, please let us know.

Sincerely,

Brad Barrish

On behalf of the Acton Academy Venice Beach Re-Opening Task Force, which includes:

Dani Foltz, Owner / Guide
Amy Radcliffe, Guide
Jack Petros, Guide
Alison Fuller, Board Member
Catherine Holliss, Parent
Serena Rasmussen, Parent
Russel Foltz-Smith, Parent

Hello,

We (the teachers at Acton Academy Venice Beach) are writing to you to communicate our support of Acton Academy Venice Beach reopening for in-person learning. We are not part of a union or other professional group- as there are only 3 of us. (Acton Academy is a Micro School with 21 students total- and only 6 students in the k-2 group).

Working in coordination with a task force made up of parents and community members, we support the reopening protocols and safety precautions that have been put in place to allow us to open up for in-person learning.

Sincerely,
Acton Academy Teachers:

Amy Radcliffe

Jack Petros

Dani Foltz-Smith

AAVB Reopening Guidelines for Learners, Parents, and the Community:

*****This document has been sent to parents, is posted at the entrance to our space, and is posted on our website at www.actonvenice.org**

***** Remote learning program is in place for any family not ready to return to in person learning at this time**

***** Awaiting Waiver Approval from the County Health Department**

Exposure Management Plan

Exposure Management Planning Prior to 1 COVID-19 Case at School

- Our Task Force (made up of guides, board members, parents, and community members) is responsible for establishing and enforcing all COVID-19 safety protocols and ensuring that staff and students receive education about COVID-19. **Brad Barrish** is our COVID-19 Compliance Officer who serves as a liaison to DPH in the event of a COVID-19 cluster or outbreak at our location.
- All students and employees who are suspected to have COVID-19 or are quarantined because of exposure should be tested by their primary care physician or at one of LA county's testing sites <https://covid19.lacounty.gov/testing/>

Exposure Management for 1 COVID-19 Case at School

- If school is notified of 1 confirmed case (student or employee), the Task Force will request that the case follow Home Isolation Instructions for COVID-19 (www.publichealth.lacounty.gov/acd/ncorona2019/covidisolation/) and the school will do remote learning for 10 days.
- Our Task Force will inform the case that DPH will follow-up directly with the case through the DPH Case and Contact Investigation Program to collect additional information and issue the Health Officer Order for Case Isolation.
- Our Task Force will work with the case to generate a list of students and employees with exposure to the case during the infectious period. Our School Compliance Officer will provide DPH with the names and contact information of the case and identified contacts within 1 business day of notification of a confirmed case.

- A case is considered to be infectious from 48 hours before their symptoms first appeared until the time they are no longer required to be isolated (i.e., no fever for at least 24 hours, without the use of medicine that reduce fevers AND respiratory systems have improved AND at least 10 days have passed since symptoms first appeared). A person with a positive COVID-19 test but no symptoms is considered to be infectious from 48 hours before their test was taken until 10 days after their test.
- A person is considered to have been exposed if they are one of the following:
 - An individual who was within 6 feet of the infected person for more than 15 minutes, even if a non-medical face covering was worn;
 - An individual who had unprotected contact with the infected person's body fluids and/or secretions of a person with confirmed or suspected COVID-19 (e.g., being coughed or sneezed on, sharing utensils or saliva, or providing care without using appropriate protective equipment).
- Students and employees that are identified to have an exposure to the case are notified by the School Compliance Task Force through a letter. A School Exposure Notification letter template is available at: [COVID-19 Template Notification Letters for Education Settings](#). The notification should include the following elements:
 - Instruct students and employees with an exposure to the case to test for COVID-19, whether or not they have symptoms, and inform the school of test results. This will determine the extent of disease spread at school and serve as a basis for further control measures. Individuals who need assistance finding a medical provider can call the LA County Information line 2-1-1, which is available 24/7.
 - Instruct exposed students and employees to quarantine for 14 days since last exposure to the case while infectious, even if they receive a negative test result during their quarantine period. A person who tests negative during the incubation period (i.e. time period between exposure to disease onset) may subsequently develop disease, with or without symptoms. Home Quarantine Guidance for COVID-19 is available at: www.publichealth.lacounty.gov/acd/ncorona/2019/covidquarantine/.
 - Notification that DPH will follow-up directly with exposed students and employees through the DPH Case and Contact Investigation Program to collect additional information and issue the Health Officer Order for Quarantine.
- School Compliance Task Force will determine whether additional notification is needed to inform wider school community about the school exposure and precautions being taken to prevent spread of COVID-19. [A general notification letter template is available at: COVID-19 Template Notification Letters for Education Settings. \(Need to insert link\)](#)

Exposure Management for 2 COVID-19 Cases at School within a 14-day Period

- If the school is notified of 2 confirmed cases (students and/or employees) within a 14-day period, school follows required steps for 1 confirmed case.
- School Compliance Task Force assesses whether the 2 confirmed cases have epidemiological links (i.e., present at the same place and time during the infectious period*).
 - A case is considered to be infectious from 48 hours before symptoms first appeared until they are no longer required to be isolated (i.e., no fever for at least 24 hours without the use of medicine that reduces fever AND symptoms have improved AND at least 10 days have passed since symptoms first appeared). A person with a positive COVID-19 test but no symptoms is considered to be infectious from 48 hours before their test was taken until 10 days after their test.
 - Determination of epidemiological links between cases may require further investigation to understand exposure history and identify all possible locations and persons that may have been exposed to the case while infectious. A tool is available to assist in the assessment of epidemiological links at: COVID-19 Exposure Investigation Worksheet for the Education Sector. For technical assistance on how to assess for epidemiological links, please contact ACDC-Education@ph.lacounty.gov.
 - If epidemiological links do not exist, school continues with routine COVID-19 exposure monitoring.
 - If epidemiological links exist, school reinforces messages to students and employees on precautions to take to prevent spread at the school, including implementation of site-specific interventions.

Exposure Management for ≥ 3 COVID-19 Cases at School within a 14-day Period

- If the school is notified of a cluster of 3 or more confirmed cases (students and/or employees) within a 14-day period, the school proceeds with the procedure for 1 or 2 cases and the following steps:
 - Report cluster to DPH Acute Communicable Disease Control (ACDC) Education Sector Team within 1 business day of notification of the cluster at: ACDC-Education@ph.lacounty.gov or call (888) 397-3993 or (213) 240-7821.
(insert links)
 - Complete Line List for Cases and Contacts, available at: COVID-19 Case and Contact Line List for the Educational Sector and submit to

ACDC-Education@ph.lacounty.gov. For technical assistance on how to complete the line list contact ACDC-Education@ph.lacounty.gov. (insert links)

- The ACDC Education Sector Team will review Line List for Cases and Contacts to determine whether the outbreak criteria have been met. The ACDC team will contact the school within 1 business day of receipt to advise on next steps.
- If it is determined that outbreak criteria are not met: continue with routine COVID-19 exposure monitoring. • If it is determined that outbreak criteria are met, DPH Outbreak Management Branch (OMB) is activated.
- An OMB public health investigator is assigned to coordinate with the school on outbreak management for the duration of the outbreak investigation.
- Our Task Force will submit requested information, including updates to the Line List for Cases and Contacts to the OMB Investigator until the outbreak is resolved (at least 14 days since the last confirmed case).
- Prior to reporting cluster to DPH ACDC Education Sector Team, our Task Force will assess whether at least 3 cases in the cluster have epidemiological links. A tool is available to assist in the assessment of epidemiological links at: COVID-19 Exposure Investigation Worksheet for the Education Sector. (insert links) For technical assistance on how to assess for epidemiological links, please contact ACDC-Education@ph.lacounty.gov.
 - If epidemiological links do not exist between at least 3 cases in the cluster, the school continues with routine COVID-19 exposure monitoring.
 - If epidemiological links exist between at least 3 cases in the cluster, report cluster to DPH Acute Communicable Disease Control (ACDC) Education Sector Team at ACDCEducation@ph.lacounty.gov or call (888) 397-3993 or (213) 240-7821.

COVID-19 Outbreak Criteria for K-12 Schools

- At least 3 laboratory-confirmed cases from different households with symptomatic or asymptomatic COVID-19 over a 14-day period in group(s)* that are epidemiologically linked.

*Groups include persons that share common membership, e.g., classroom, school event, school extracurricular activity, academic class, sport teams, clubs, transportation. For more information, please contact the ACDC Education Sector Team at ACDCEducation@ph.lacounty.gov.

***See Appendix A attached at end of the document for a simplified version of the above info

Containment, Response, and Control Plan

- Task force is responsible for establishing and enforcing all COVID-19 safety Protocols
- Brad Barrish is our Liaison to DPH
- All families and staff have been informed to stay home if experiencing any symptoms or were exposed to anyone now experiencing symptoms.
 - All employees have been provided information regarding government sponsored sick days as related to COVID: <https://www.labor.ca.gov/coronavirus2019/#chart>
- If any member of the community (faculty, staff, students, or visitors) tests positive for or has symptoms of Covid-19:
 - Any community member with a temp of 100.1 or higher will need to stay home
 - Symptom checklist for each community member daily- if any symptoms, must stay home. If anyone in the home has symptoms, must stay home. (See checklist here:
https://docs.google.com/spreadsheets/d/1-xvRwqelykLTuAmnTAgJnB5ONR4K7TgjQnJ_YGRGllg/edit?usp=sharing)
 - If any community member comes into contact with someone who has tested positive (within 6 ft for more than 10 minutes), that Eagle must stay home for at least 14 days.
 - Parents will sign a contract stating they understand and will follow the above outlined protocols for staying home.
 - Adult visitors and staff who screen positive for any symptoms at entry or who report symptoms at any point during the school day are instructed to return home and self-isolate as required by Health Officer Order of July 1, 2020
 - Students who screen positive at entry or who report symptoms at any point during the school day will be given a clean mask and accompanied to our empty classroom where they can remain while arrangements are made for their return home.
 - The COVID-19 Compliance Team (task force) is informed of any positive screening result in the school and initiates the **School Exposure Management Plan consistent with DPH directives** (See above and below)
 - Adult visitors and staff who have had close contact with an individual who has screened positive are instructed to return home to self-quarantine as required by Health Officer Order of July 1, 2020, until such time as it has been determined that the individual screening positive for COVID19 symptoms is negative for COVID-19.
 - Students who have had close contact with an individual who has screened positive for COVID-19 symptoms are accompanied to our empty classroom where they can remain until arrangements are made for their return home. This

space is apart from the one set aside for symptomatic students. It may be a separate room or an area within the same room that is set apart by a barrier. Once they return home, they are instructed to self-quarantine as required by Health Officer Order of May 1, 2020, until such time as it has been determined that the individual screening positive for COVID-19 symptoms is negative for COVID-19.

- Screening of adults and of middle and high school age students includes a question about close contact with anyone at home, school or elsewhere that the individual has been told has tested positive for COVID19.
 - Any adult who is screened for exposure and reports close contact with an infected person is instructed to leave the school, return home to initiate self-quarantine, and get testing for COVID19.
 - Any middle or high school student who is screened for exposure and reports close contact with an infected person is accompanied to a predetermined space in the school while arrangements are made for them to be picked up by parents in order to initiate quarantine at home. Parents are advised to seek testing for the child.
- Measures are in place to limit risk of infection due to visits by individuals other than staff and students. These may include (check all that apply):
 - Visits to the school by individuals other than staff and students are avoided whenever feasible. Parents of enrolled students are encouraged to conduct business with school personnel remotely when possible.
 - Visitors to the school other than parents of enrolled students are limited to those who are essential for the school's operation. Visitors are by appointment only and are pre-registered in a visitor log that includes a visitor's name, phone number and email address. Visitors are instructed to come to their appointments alone. If a visitor must be accompanied by another person (e.g., for translation assistance, or because the visitor is a minor, or has minor students) their information is captured in the visitor log.
 - Visitors arriving at the school with non-enrolled children (e.g. younger siblings of students) must ensure that these children stay next to an adult, avoid touching any other person or any item that does not belong to them, and are masked if 2 or older and not at risk due to a respiratory condition.
 - Movement of visitors within the school is limited to designated areas such as the reception or lobby area, offices, conference or meeting rooms, and public rest rooms to the extent feasible.
 - Visitors arriving at the school are reminded to wear a face covering at all times while in the school. This applies to all adults and to children 2 years of age and older. Only individuals who have been instructed not to wear a face covering by their medical provider are exempt from wearing one. To support the safety of your employees and other visitors, a face covering should be made available to visitors who arrive without them.

- Portable, high efficiency air cleaners will be in each classroom
- All Staff will have access to masks, shields, gloves, soap/water, hand sanitizer, and cleaning supplies at all times (Provided by the school)
 - Hand Sanitizer will be at building entrances and exits, stairway entrances, and all classrooms (Ethyl alcohol- based only)
 - Staff has been briefed about the dangers of isopropyl alcohol. If there is any reason to believe a student has ingested this kind of hand sanitizer, they will call poison control at 800-222-1222
- Testing is available at the urgent care by school and will be paid for by the school. Guides will test on a regular basis.
- All face coverings should be washed daily
- All work stations will be placed at least 6 feet apart. (More as space allows)
- Signs are posted at all entrances limiting access to students and guides only. No outside visitors, siblings, or parents should enter the space.
- All students and faculty will have their own set up supplies- supplies will not be shared.
- All high touch areas will be cleaned at least 3 times per day. Any supplies that have to be shared will be cleaned after each person uses.
 - Cleaning supplies will be available in all classrooms and the bathrooms
- If we are required to close for any reason, our fully remote learning plan is ready to go.

Drop off/Pick up

- Parents stay in cars- Staff will meet students at their car.
- Eagles Temp checked as they get out of car
- Any Eagle with a temp of 100.1 or higher will need to stay home
- Symptom checklist for each Eagle Daily
https://docs.google.com/spreadsheets/d/1-xvRwqelykLTuAmnTAgJnB5ONR4K7TgjQnJ_YGRGllg/edit?usp=sharing
- Eagles immediately head to the bathrooms where a guide will ensure hands are washed properly
- Stagger drop off times and pick up times by studio
- Masks are worn at all times
- Parking lot will be chalked to show physical distancing

Day to Day Operations, Studio Set up and Supplies

- No parents, siblings, or visitors in the studios
- Masks must be worn
- Studios will stay completely separate and not mix
- All windows will be open all day. Eagles should bring a sweater in case they get cold- we will not close any windows.

- Eagles should only bring their lunch and computer/charger/headphones to school. All other personal items should be left at home.
- No sharing of chargers or headphones.
- Backpacks, jackets, etc all stored at desks and not touch each other's belongings
- Each Eagle will be supplied with their own supplies/learning tools
- Hand Sanitizer in multiple places around each room
- All classroom furniture will be at least 6 ft apart and markers will be throughout the rooms to visually show 6 ft.
- Circle times or group discussions will use mats that are at least 6 ft apart
- As much outside time as possible. Wifi outside, pop up tents, and additional seating outside.
- Soft toys or items that can not be cleaned will be removed from the studio
- Free time and PE games will be limited to non-contact games/sports
- All sports equipment will be disinfected daily or between usage by 2 different learners
- Bring lunch with an ice pack. No using the fridge, the microwave, or sharing food.
- No taco Truck
- At least 9 feet apart when eating. Eat outside as much as possible- almost always. Staggered lunch times to allow for this.
- No sharing of equipment such as chargers or headphones
- Eagles can not touch each other's computers.
- Will find ways to help youngest eagles not touch a lot of surfaces through playful games (Walk like a penguin in the hall!)
- Remove half of the manipulatives and games from the studios. Clean everything daily. Rotate the other half in weekly.
- We will be creative about all the ways we can use our space and give Eagles lots of opportunities to work "away" from each other
- No musical instrument playing in person
- No field trips
- Eagles and Guides will be given multiple opportunities throughout the day to wash their hands... in addition to scheduled time when arriving, any time they use the restroom, before and after lunch, and after all outside play time.
- All school events such as Exhibitions of Learning will be remote or canceled.
-

Cleaning

- High touch areas cleaned before school, mid day, and after school
- Desks are cleaned every day before and after lunch and at end of day
- Any supplies or sports equipment that will be used by more than one person will be cleaned between users

- Bathrooms will be cleaned twice daily- deep cleaning will occur when learners are not present to allow for time to air out
- All cleaning supplies are on the approved EPA list
- All disinfecting cleaning supplies are kept out of reach of students
- School is providing gloves and extra masks for cleaning times.
- Windows and classroom doors will be open all day

PPE

- Masks must be worn
- We have extra masks and gloves at school for anyone who needs them
- Parents should send 2 masks to school each day.
- We have n95 masks for staff to wear if they must be near a sick student while waiting for that student to be picked up.
- Families have been instructed to wash masks daily

Health and Other Policies

- All state and county posters printed and hung around building and studio
 - Alert everyone to wear a mask
 - Alert everyone to keep physically distanced
 - Reminder to wash hands
 - Reminder to use hand sanitizer regularly
 - Reminder to not enter the facility if experiencing any symptoms or known exposure
- All social media will be updated regularly with the reminder of the above
- Contract with parents for keeping their Eagles home with ANY symptom.

Remote Options

- We understand that each family has a different risk tolerance, and have full respect for that. We will continue to offer remote learning. While this is not ideal for our program, we will work to find the best ways to incorporate those who are learning at home with those in the studios.

- *** We do not have locker rooms, sport teams, choir, nurses office, front desk, or buses
- *** Our “space” refers to 4 classrooms, a hallway between classrooms, bathrooms, and outside space.
- *** We do not have any vulnerable employees or staff (over the age of 65)
- *** Max number of students in studios or pods: 10

Appendix A: Steps for Managing Exposures to 1, 2, and \geq 3 COVID-19 Cases at School

1 Case

- 1) School receives notification of 1 confirmed case at school.
 - 2) Required: School requests that case follow Home Isolation Instructions for COVID-19 (a).
 - 3) Required: School informs case that the Department of Public Health (DPH) will contact the case to collect additional information and issue Health Officer Order for self-isolation (a).
 - 4) Required: School works with case to determine contacts that were exposed to case at school while infectious.
 - 5) Required: School notifies contacts of school exposure, requests contacts to follow instructions for self-quarantine (b) and test for COVID-19.
 - 6) Required: School informs contacts that DPH will follow up to collect additional information and issue Health Officer Order for self-quarantine (b).
 - 7) Required: School provides DPH with names and contact information for case and identified school contacts.
 - 8) Recommended: School can send general notification to inform the wider school community (recipients determined by school) of the exposure and precautions taken to prevent spread.
- Note: Template letters for exposure notification and general notification are available at: COVID-19 Template Notification Letters for Education Settings. [Insert links](#)

2 Cases

- 1) Required: Follow steps for 1 confirmed case.
- 2) Recommended: If cases occurred within 14 days of each other, school determines whether epidemiological (epi) links exist (cases present in the same setting during the same time period while infectious). A COVID-19 Exposure Investigation Worksheet for the Education Sector tool is available to help assess for epi links.

*Epi links do not exist: continue with routine exposure monitoring.

*Epi links exist: School reinforces messages to students and employees on precautions taken to prevent spread; implement site-specific interventions, as needed, to reduce transmission.

3+ Cases

- 1) Required: If a cluster of 3 or more cases occurred within 14 days of each other, school notifies ACDC Education Sector Team at ACDC-Education@ph.lacounty.gov.
- 2) Recommended: Prior to notifying ACDC Education Sector Team of cluster, school assesses whether epi links exist for ≥ 3 cases. If epi links do not exist, continue with routine monitoring.
- 3) Required: ACDC Education Sector Team requests that the COVID-19 Case and Contact Line List for the Educational Sector be completed by school to determine if outbreak criteria have been met. ACDC will contact school within 1 business day to advise on next steps.
 - *Outbreak criteria not met: school continues with routine exposure monitoring.
 - *Outbreak criteria met: DPH Outbreak Management Branch (OMB) activated.
- 4) Required: During the outbreak investigation, school provides updates to OMB investigator until outbreak is resolved (at least 14 days since last confirmed case).
 - (a) Health Officer Order, cases directed to self-isolate until no fever for at least 24 hours (without the use of medicine that reduces fever) AND symptoms have improved AND at least 10 days have passed since symptoms first appeared OR, if case has no symptoms, until 10 days have passed after their positive test was taken.
<http://www.publichealth.lacounty.gov/acd/ncorona2019/covidisolation/>.
 - (b) Health Officer Order, contacts directed to quarantine for 14 days since date of last exposure to case while infectious.
<http://publichealth.lacounty.gov/acd/ncorona2019/covidquarantine/>. (insert all links)

Reopening Protocols for K-12 Schools: Appendix T1

Recent Update

9/7/20: Section A has been updated to clarify the reporting requirements to the Department of Public Health when there is a COVID-19 exposure at the school. In addition, the number of days during which an exposed person is considered to be at risk, has been corrected from 12 to 14 days on page 5 (changes highlighted in yellow).

During this period when schools are generally restricted to remote learning, two types of on-site programming are permitted: (1) specialized services for defined subgroups of children who need in person services and support, as well as (2) ECE licensed child care and day care for school-aged children with proper licensure or waiver of same from Community Care Licensing (CCL). Specialized services for subgroups of students and day care for school-aged children must be carried out in compliance with all provisions for safe opening of schools detailed in this document. In addition, both types of programming must be provided to children either individually or in cohorts. Key elements of cohorting for both types of program are as follows.

All K-12 schools in California counties that are in Tier 1 of the State's Framework for Recovery, including Los Angeles County, are prohibited from reopening for in-person instruction except to address needs of students requiring specialized support and services, as described below. In compliance with this order and except for students needing specialized services, K-12 schools in Los Angeles County may open only for remote learning. During this period, employees and staff, as defined below, may report to school campus for work in order to support essential operations, implementation of remote learning, and, starting September 14, 2020, to serve children who qualify for specialized services. All measures to ensure the safety of employees and students in this protocol for Reopening of K-12 Schools and of the associated protocol for K-12 Exposure Management must be implemented and are applicable to all on-site personnel, including those providing specialized services. Waivers for opening of elementary (TK through grade 6) education are not currently being offered or permitted.

- ☐ For purposes of these two types of programs, a cohort is defined as a stable group of no more than 12 children or youth and no more than two supervising adults in a supervised environment in which supervising adults and children stay together for all activities (e.g., meals, recreation, etc.), and avoid contact with people outside of their group in the setting.
 - ⊗ Note that while some children may be part-time participants in the cohort, other children cannot be added to the group to reach the maximum of 12 at all times. Aides assigned to individual children do not have to be counted as supervising adults. They must, however, be counted against the maximum of 14 individuals who can be included in a cohort.

- XI While Local Education Agencies (LEAs) or schools may configure as many cohorts as are appropriate to meet student needs, the total on-campus population may not exceed 10% of the total student body at any one time. (25% for microschoools)
- XI A supervising adult is an adult assigned to one cohort of children or youth, who does not physically interact with any other cohorts. This includes child care staff, certificated or classified school staff, volunteers, participating parents or caregivers, or other designated supervising adult(s). An aide who is present to provide support to an individual child should be counted as a member of the cohort but not as a supervising adult.
- XI A supervised care environment is an environment where multiple children or youth, from multiple families or households, are supervised simultaneously by an adult. This includes, but is not limited to, licensed child care facilities, licensed exempt child care programs, supervised programs on a school site while a school is not in session or is providing curriculum in a distance-learning format, or where some educational services are being offered to a subgroup of students as identified by a local educational agency on a school.
- XI LEAs and schools that choose to implement either or both of these on-site services while schools are otherwise closed to in-person instruction, must inform the Los Angeles County Department of Public Health of their plans prior to start of services. A reporting form can be found at [Small Group Instruction Notification Form](#)
- Important additional details for implementation of cohorts are available from the CA Department of Public Health at [Guidance for Small Cohorts](#).
- Specific requirements for each of the two types of currently permitted on-site programming are as follows:

1. Specialized Services for defined subgroups of children

- LEAs and schools are not required to provide specialized, in-person services, but those that do so may serve an initial subpopulation of students with IEPs and students who are English Language learners. These students may be served as needed, provided that the overall number of students present on-site does not exceed 10% of total student body at any one time.
- Specialized services may include but are not limited to occupational therapy services, speech and language services, other medical services, behavioral services, educational support services as part of a targeted intervention strategy, or assessments, such as those related to English Learner status, Individualized Education Plans and other required assessments.
- Students who are part of a cohort may leave the cohort for receipt of additional services. Any additional services, however, must be provided one-on-one by the appropriate specialist in a secure space that is apart from all other people. No child may be part of more than one cohort.
- Schools must agree to cooperate with DPH with regard to screening, monitoring and documentation that will be required to permit careful scrutiny of health outcomes associated with this initial period of expansion.
- To the extent consistent with specialized needs of students in a given cohort, use of outdoor space for at least 50% of the school day is strongly encouraged
- Further information from the State concerning specialized services may be found at [Specialized Support and Services](#).

2. Day care for school-aged children and/or child care programs located in schools

- LEAs and schools that offer day care services for children at schools must be in compliance with the DPH protocol for [Programs Providing Day Care for School-Aged Children](#) or the [Guidance for ECE Providers](#). Programs that wish to provide day care for school aged children at schools should communicate with their Community Care Licensing [Regional Office](#) to inquire regarding the availability of waivers for licensed child care facilities and license-exempt providers due to COVID-19. For additional information see [PIN 20-22-CCP](#)
- As in the case of specialized services, use of outdoor space is strongly recommended for learning as well as for meals, recreation and other activities in the course of the day.

While schools are closed to all classroom instruction, in person assessments are permitted on campus for students who have or who require evaluation for Individualized Education Plans (IEPs) when such assessments cannot reasonably be performed elsewhere.

The County of Los Angeles Department of Public Health is adopting a staged approach, supported by science and public health expertise, to enable schools serving students from kindergarten through grade 12 to reopen safely. In addition to the conditions imposed on schools by the State Public Health Officer and the California Department of Education, schools must also be in compliance with these employee and student safety and infection control protocols.

Please note: This document may be updated as new information and resources become available. Go to <http://www.ph.lacounty.gov/media/Coronavirus/> for updates to this document.

This checklist covers:

- (1) Workplace policies and practices to protect employee and student health
- (2) Measures to ensure physical distancing
- (3) Measures to ensure infection control
- (4) Communication with employees, students and families of students and the public
- (5) Measures to ensure equitable access to critical services.

These five key areas must be addressed as your facility develops any reopening protocols.

Schools must implement all applicable measures listed below and be prepared to explain why any measure that is not implemented is not applicable to the setting.

Institution name:	Acton Academy Venice Beach
Address:	2210 Lincoln Blvd Ste 13, Venice 90291
Maximum Occupancy, per Fire Code:	450
Approximate total square footage of space open to faculty and/or students:	1800 indoor and 1000 outdoor- more as needed

Estimated total number of administrators, teachers, and other employees that will be returning to support resumption of all permitted in person services for students: 3

Estimated total number of students that will return per grade (if none, enter 0):

TK: <u>0</u>	K: <u>1</u>	1: <u>2</u>	2: <u>1</u>	3: <u>1</u>	4: <u>1</u>	5: <u>1</u>
6: <u>1</u>	7: <u>1</u>	8: <u>2</u>	9: <u>0</u>	10: <u>1</u>	11: <u>0</u>	12: <u>2</u>

NOTE: The terms “employees” and “staff” are used in these protocols to refer to individuals who work in a school facility in any capacity associated with teaching, coaching, student support, provision of therapies or personal assistance to individual students, facility cleaning or maintenance, administration, or any other activity required for the school to function. “Employees” or “staff” may include individuals who are: paid directly by the relevant school system, paid by entities acting as contractors to the school, paid by outside entities acting in collaboration with the school to serve students, paid by third parties to provide individual student services, or unpaid volunteers acting under school direction to carry out essential functions. The term “parents” is used in these protocols to refer to any persons serving as caregivers or guardians to students.

A. WORKPLACE POLICIES AND PRACTICES TO PROTECT STAFF (“EMPLOYEES”) AND STUDENTS (CHECK ALL THAT APPLY)

The school has a COVID-19 Containment, Response and Control Plan that describes the school’s comprehensive approach to preventing and containing the spread of COVID-19 on campus. The Plan includes, but is not limited to the following elements:

- A designated COVID-19 Compliance Team that is responsible for establishing and enforcing all COVID-19 safety protocols and ensuring that staff and students receive education about COVID-19. One member of this team is designated as a liaison to DPH in the event of an outbreak on campus.
- A plan or protocol, for steps that will be taken immediately upon notification of school officials that any member of the school community (faculty, staff, student or visitor) tests positive for, or has symptoms consistent with COVID-19. The plan addresses:
 - Immediate separation of the case from the school community to self-isolation at home if notification occurs while the case is on-site. The plan must allow for temporary, on-site isolation of the case if arrangements are needed for the person’s return to their home.
 - Factsheets or other informational materials that are to be given to the case (or appropriate family member/s if the case is a child) covering regulations governing self-isolation and links to sites with further information.
- A plan or protocol to initiate a [School Exposure Management Plan](#) consistent with DPH guidance that outlines procedures for:
 - Isolation of case(s);
 - Identification of persons exposed to cases at school;
 - Immediate quarantine of exposed employees and/or students; and

- ✘ Assurance of access to testing for all exposed individuals within the school as the basis for further control measures.
- ✘ Reporting all COVID-19 exposures at the school to the Department of Public Health by completing the [COVID-19 Case and Contact Line List for the Educational Sector](#).
- ☑ A plan to immediately report a cluster of cases (3 or more cases within 14 days) to the Department of Public Health via email at ACDC-Education@ph.lacounty.gov or by calling (888) 397-3993 or (213) 240-7821. The Department of Public Health will work with the school to determine whether the cluster is an outbreak that will require a public health outbreak response.
- ☑ Contingency plans for full or partial closure of in-person school operations if that should become necessary based on an outbreak in the school or community.
- ☑ A plan or protocol for incorporating surveillance testing into regular school operations of all school personnel.
 - ✘ The plan must describe the strategy for ensuring access to periodic testing for all school personnel to be implemented when instructed by the Department of Public Health based on local disease trends and/or after resolution of an outbreak at the school.
 - ✘ The plan must provide that all surveillance testing results will be reported to the Department of Public Health
- ☑ Vulnerable employees (those above age 65, and those with chronic health conditions that would place them at high risk if infected) are assigned work that can be done from home whenever possible. Employees in this category should discuss any concerns with their healthcare provider or occupational health services to make appropriate decisions on returning to the workplace.
- ☑ Work processes are reconfigured to the extent consistent with academic requirements and student needs to increase opportunities for employees to work from home.
- ☑ In compliance with wage and hour regulations and school mandates, alternate, staggered or shift schedules have been instituted to maximize physical distancing where possible.
- ☑ All employees have been told not to come to work if sick or if they have been exposed to a person who has COVID-19. School officials have provided information to employees regarding [employer or government sponsored leave benefits](#), including their right to paid sick leave as guaranteed by the [Families First Coronavirus Response Act](#).
- ☑ Use of school facilities for non-school purposes (community meeting or events, on-site clinic visits by people who are neither students nor staff, etc.) is not permitted.
- ☑ [Employee screenings](#) are conducted before employees may enter the workspace. Checks must include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills and if the employee has had contact with a person known to be infected COVID-19 in the last 14 days.
- ☑ These checks can be done remotely or in person upon the employees' arrival. A temperature check should also be done at the worksite if feasible.
- ☑ Anyone entering school property (school buses as well as school buildings and grounds) who has contact with others (students, parents or other employees) is required to wear a cloth face covering.
 - ✘ Employees who have contact with others are offered, at no cost, an appropriate face covering that covers the nose and mouth. The covering is to be worn by the employee at all times during the workday when in contact or likely to come into contact with others. Employees who have been instructed by their medical provider that they should not wear a face covering should wear a face shield with a drape on the bottom edge, to be in compliance with State directives, as long as their condition permits it. A drape that is form fitting under the chin is preferred. Masks with one-way valves should not be used.

**COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER**

- ✕ Employees need not wear a face covering when the employee is alone in a private office or a cubicle with a solid partition that exceeds the height of the employee when standing.
- ✕ A medical grade mask is provided to any employee who cares for sick children or who has close contact with any child with a medical condition that precludes the child’s use of a cloth face covering.
- ✕ Alternative protective strategies may be adopted to accommodate students who are on Individualized Education or 504 Plans and who cannot use or tolerate cloth face coverings.
- Employees are instructed to wash or replace their face coverings daily. Parents are instructed to ensure that children have clean face coverings.
- All individual employee workstations or areas used by employees working as part of a team allow for separation of at least 6 feet. Classroom furniture is arranged to permit a distance of at least 6 feet between the teacher’s desk and the nearest student(s).
- In compliance with wage and hour regulations, breaks are staggered to ensure that physical distancing can be maintained in break rooms.
- All employees, on-site contractors, vendors and delivery personnel have been provided instructions regarding maintaining physical distancing and the required use face coverings when around others.
- Break rooms, restrooms, classrooms, and other common areas used or visited by staff are disinfected frequently, on the following schedule:
 - Break rooms n/a
 - Restrooms before school, mid-day, after school
 - Classrooms before school, mid-day, after school
 - Laboratories n/a
 - Nurse’s office n/a
 - Counseling and other student support areas n/a
 - Front office n/a
 - Other offices before school, mid-day, after school
 - Other (auditorium, gymnasium, library if in use) outdoor space- same as above
 - _____
- High touch areas in staff breakrooms are frequently disinfected, and commonly shared items, such as coffee pots, pots, and dishes, are replaced with single use items or thoroughly cleaned after each use by a different person.
- Disinfectant and related supplies are available to employees at the following location(s):
all classrooms, outdoor cart, bathroom baskets
- Hand sanitizer effective against COVID-19 is available to all employees in or near the following locations (check all that apply)
 - ✕ Building entrance/s,exit/s
 - ✕ Central office
 - ✕ Stairway entrances
 - Elevator entry (if applicable)

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER

- Classrooms
 - Faculty breakroom
 - Faculty offices: _____
- Soap and water are available to all employees at the following location(s):
bathrooms _____
- Employees are offered frequent opportunities to wash their hands.
- Each employee is assigned their own tools, supplies, equipment and defined workspace to the extent feasible. Sharing of workspaces and held items is minimized or eliminated.
- Copies of this Protocol have been distributed to all employees.
- Optional—Describe other measures:

**B. MEASURES TO ENSURE PHYSICAL DISTANCING BY STAFF, STUDENTS AND VISITORS
(CHECK ALL THAT APPLY)**

- Maximum number of employees permitted in facility to maximize physical distancing of at least 6 feet or with appropriate physical barriers where 6 feet of distancing is not possible, is: 3.
- Maximum number of students permitted in facility to ensure that no more than 10% of the total student body at any one time and to maximize physical distancing of at least 6 feet or with appropriate physical barriers where 6 feet of distancing is not possible, is: 6.
- Measures are in place to ensure physical distancing of students on school busses. These measures must include (check all that apply): n/a- no buses
 - A maximum of one child per bus seat.
 - Use of alternating rows.
- Additional measures in use to ensure physical distancing (Check all that apply):
 - Staggered school start times to permit more than one trip per bus at school start and close.
 - Implementation of measures that make it easier for parents to drive students to school, such as availability of early opening with staff presence, expanded short-term parking at schools, and presence of staff at drop-off areas to assure safe movement of students from drop-off to school entry.
 - Implementation of measures that facilitate safe and age-appropriate student travel to school including Safe Routes to School walking groups, use of school crossing guards, bicycle safety and bike route programming.
 - Parents have been engaged in working with school personnel to assure that alternative transportation options are appropriately supervised and have incorporated strategies for physical distancing and use of cloth face coverings.
 - Building infrastructure is adapted to maximize support for bicycle commuting and capacity for bike storage is increased if possible.
 - Other:

- Measures are in place to ensure physical distancing as students, parents or visitors enter and move through the school building. These must include (check all that apply):
- Schedules are adjusted to ensure that only one cohort is moving through common spaces (such as hallways and bathrooms) at a given time.
 - School employees are deployed in hallways to assure physical distancing as students enter, go through symptom checks and proceed to classrooms.
 - Elevator capacity, if applicable, is limited to the number of people that can be accommodated while maintaining a 6 foot distance between riders; during peak building entry and exit times, this number can be adjusted to a maximum number of 4 riders at a time for any elevator that does not allow for 6- foot physical distance between riders. All riders are required to wear cloth face coverings.
 - The following Measures are in place to avoid crowding on stairways:
 - Designation of up and down stairways X
 - Staggering of breaks between classes X
 - Monitoring of stairways by school staff X
 - Other: _____
-
- Measures are in place to ensure physical distancing within classrooms. These include the following requirements (check all that apply):
- A cohorting approach has been adopted school-wide, maintaining a stable group of no more than 12 children or youth and no more than two supervising adults in a supervised environment in which supervising adults and children stay together for all activities (e.g., meals, recreation, etc.), and avoid contact with people outside of their group in the setting, throughout the school day.
- In-person class size has been limited to 6 students in elementary grades.
 - In-person class size has been limited to 5 students in middle and high school grades.
 - The school day has been divided into shifts to permit fewer students per class.
 - Attendance is staggered to reduce the overall number of students in classrooms on a given day.
 - Some classes have been moved entirely online.
 - Online class attendance and participation is offered as an option for all students for all classes.
 - Alternative spaces are used to reduce the number of students within classrooms. These may include:
 - School library X
 - Auditorium
 - Cafeteria
 - Gymnasium
 - Other: outside
-

- ✘ Classroom furniture is set up to ensure 6 feet between students at their desks/tables and between students and teachers (placement of desks/tables, use of floor markings to indicate required distance, etc.) to the extent feasible. Where 6 feet of distance is not possible, physical barriers are used to minimize close contacts.
- ✘ Furniture designed for in-class group activities that bring students closer than 6 feet has been reconfigured or removed from the classroom.
- ✘ Nap or rest areas in classrooms have students placed 6 feet apart and alternating feet to head.
- ✘ Teaching methods have been modified to avoid close contact between students for any classes that may usually involve group activities.
- Other:
 - _____
- ✘ Any gym class activities are offered outdoors and are selected to permit physical distancing; contact sports are not permitted.
- ✘ School policies enforce physical distancing (students maintain distance of 6 feet) in locker rooms. Policies must include:
 - ✘ Offering access to locker rooms only when staff supervision is possible Staggering locker room access
 - ✘ Creating alternative options for storage of student clothing, books and other items.
- ✘ Measures are in place to maintain physical distancing during school meals. These must include (check all that apply):
 - ✘ Meals are eaten in classrooms or outdoors, without any mingling of cohorts from different classrooms.
 - If students line up to pick up food, tape or other markings are used to assure a 6-foot distance between any two students.
 - ✘ Staff are deployed during meals to maintain physical distancing and prevent any mixing of students from different cohorts.
 - If meals take place in a cafeteria, mealtimes are staggered to only allow one cohort at a time in the cafeteria.
 - If meals take place in a cafeteria, space between all tables/chairs has been increased to support 6 feet of physical distancing. Barriers between tables and/or chairs may be used as an alternative when 6 feet of distancing is not possible.
- ✘ Food preparation and service operations have been redesigned, where possible, to achieve physical distancing between employees. For example, kitchen and other back of house floors are marked to reinforce physical distancing requirements.
- ✘ Measures are in place to permit physical distancing in school areas used for student support services.
 - ✘ Student support staff, including school employees (nurses, guidance counselors, therapists, etc.) and employees of adjunct support programs (clinicians, health educators, etc.) have been instructed to maintain a physical distance of at least 6 feet to the extent feasible while engaging in student support activities.

- ✘ Furniture and equipment in school areas used for student support services are arranged to promote a 6-foot distance between any two students and/or between students and staff.
- ✘ Where feasible and appropriate, therapeutic and support activities are conducted virtually.
- ✘ Sharing of equipment and supplies is avoided where possible. Should equipment need to be shared, it must be sanitized before and after each use by a different student and/or employee

n/a Staff offering student support services are provided with appropriate Personal Protective Equipment (PPE) per Cal OSHA requirements.

- Measures are in place to permit physical distancing in administrative areas of the school.
 - ✘ Signage alerts visitors to the need to maintain a 6-foot distance from school office personnel.
 - ✘ Tape or other markings are used to define a 6-foot radius around reception desks or counters.
 - ✘ Workstations of administrative personnel have been arranged to permit 6 feet between individuals sharing a space or between office personnel and students or other staff required to visit the space.

C. MEASURES THAT ENSURE INFECTION CONTROL (CHECK ALL THAT APPLY TO THE FACILITY)

- Screening is conducted before students, visitors and staff may enter the school. Screening must include a check-in concerning cough, shortness of breath or experience of fever and any other symptoms the visitor may be experiencing. These checks can be done remotely (using a digital app or other verifiable approach) or in person upon arrival. A temperature check with a no-touch thermometer is included in the symptom check at entry if feasible.
 - ✘ Adult visitors and staff who screen positive at entry or who report symptoms at any point during the school day are instructed to return home and self-isolate as required by Health Officer Order of July 1, 2020 (see [July 1 Isolation HOO.pdf](#)).
 - ✘ Students who screen positive at entry or who report symptoms at any point during the school day are given a surgical mask and accompanied to a pre-selected isolation space where they can remain while arrangements are made for their return home.
 - ✘ The COVID-19 Compliance Team (see Section A) is informed of any positive screening result in the school and initiates the School Exposure Management Plan consistent with DPH directives
 - ✘ Adult visitors and staff who have had close contact with an individual who has screened positive are instructed to return home to self-quarantine as required by Health Officer Order of July 1, 2020, until such time as it has been determined that the individual screening positive for COVID-19 symptoms is negative for COVID-19. (see [July 1 Quarantine HOO.pdf](#)).
 - ✘ Students who have had close contact with an individual who has screened positive for COVID-19 symptoms are accompanied to preselected quarantine space where they can remain until arrangements are made for their return home. This space is apart from the one set aside for symptomatic students. It may be a separate room or an area within the same room that is set apart by a barrier. Once they return home, they are instructed to self-quarantine as required by Health Officer Order of July 1, 2020, until such time as it has been

determined that the individual screening positive for COVID-19 symptoms is negative for COVID-19. (see [July 1 Quarantine HOO.pdf](#)).

- Screening of adults and of middle and high school age students includes a question about close contact with anyone at home, school or elsewhere that the individual has been told has tested positive for COVID- 19.
 - ✘ Any adult who is screened for exposure and reports close contact with an infected person is instructed to leave the school, return home to initiate self-quarantine, and get testing for COVID- 19.
 - ✘ Any middle or high school student who is screened for exposure and reports close contact with an infected person is provided with a surgical mask and accompanied to a predetermined space in the school while arrangements are made for them to be picked up by parents in order to initiate quarantine at home. Parents are advised to seek testing for the child.
- Measures are in place to limit risk of infection due to visits by individuals other than staff and students. These must include (check all that apply):
 - ✘ Visits to the school by individuals other than staff and students are avoided whenever feasible. Parents of enrolled students are encouraged to conduct business with school personnel remotely when possible.
 - ✘ Visitors to the school other than parents of enrolled students are limited to those who are essential for the school's operation. Visitors are by appointment only and are pre-registered in a visitor log that includes a visitor's name, phone number and email address. Visitors are instructed to come to their appointments alone. If a visitor must be accompanied by another person (e.g., for translation assistance, or because the visitor is a minor, or has minor students) their information is captured in the visitor log.
 - ✘ Visitors arriving at the school with non-enrolled children (e.g. younger siblings of students) must ensure that these children stay next to an adult, avoid touching any other person or any item that does not belong to them, and are masked if 2 or older and not at risk due to a respiratory condition.
 - ✘ Movement of visitors within the school is limited to designated areas such as the reception or lobby area, offices, conference or meeting rooms, and public rest rooms to the extent feasible. Visitors are not permitted to interact with any cohorts.
 - ✘ Visitors arriving at the school are reminded to wear a face covering at all times while in the school. This applies to all adults and to children 2 years of age and older. Only individuals who have been instructed not to wear a face covering by their medical provider are exempt from wearing one. To support the safety of your employees and other visitors, a face covering should be made available to visitors who arrive without them.
- Measures are in place to promote optimal ventilation in the school. These may include (check all that apply):
 - ✘ At least 50% of classroom learning, meals, and activities have been moved to outdoor space whenever feasible and weather permitting.
 - n/a The school HVAC system is in good, working order.

n/a HVAC systems are set to maximize indoor/outdoor air exchange unless outdoor conditions (recent fire, very high outside temperature, high pollen count, etc.) make this inappropriate.

- ✘ Portable, high-efficiency air cleaners have been installed if feasible.
- ✘ Doors and windows are kept open during the school day if feasible and if outdoor conditions make this appropriate.
- ✘ Air filters have been upgraded to the highest efficiency possible.
- Other:

Measures are in place to ensure appropriate cleaning and disinfecting of space, surfaces and objects throughout the school. These may include (check all that apply).

- ✘ A cleaning and disinfecting schedule have been established in order to avoid both under- and over- use of cleaning products.

n/a Buses are thoroughly cleaned and disinfected daily and after transporting any individual who is exhibiting symptoms of COVID-19. Drivers are equipped with disinfectant wipes and disposable gloves to support disinfection of surfaces as needed during a run. Frequently touched surfaces are disinfected after every completed bus route.

- ✘ Common areas and frequently touched objects in those areas (tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, elevator switches and buttons, touch screens, printers/copiers, grab bars, and handrails) are disinfected at least daily and more frequently as resources allow using appropriate products (see below).
- ✘ Use of shared objects is eliminated wherever possible, for example, water fountains are shut down and individual water bottles are provided as an alternative, high touch playground equipment may be taken out of use and replaced with no-touch playground games, etc.
- ✘ Where individualized alternatives are not feasible, for example, in laboratories and art rooms where some equipment may have to be used by multiple students, objects and surfaces are cleaned and disinfected between users.
- ✘ Cleaning products that are effective against COVID-19 (these are listed on the Environmental Protection Agency (EPA)-approved list "N") are used according to product instructions.
- ✘ To reduce asthma risk disinfectant products on list N with asthma-safer ingredients (hydrogen peroxide, citric acid or lactic acid) are selected. Products which contain peroxyacetic (peracetic) acid, sodium hypochlorite (bleach) or quaternary ammonium compounds are avoided.
- ✘ Custodial and other staff responsible for cleaning and disinfecting school surfaces and objects are trained on manufacturer's directions, Cal OSHA requirements for safe use and as required by the Healthy Schools Act, as applicable.
- ✘ Custodial staff and other staff responsible for cleaning and disinfecting are equipped

with appropriate personal protective equipment, including gloves, eye protection, respiratory protection and other appropriate protective equipment as required by the product

- ✘ All cleaning products are kept out of children's reach and stored in a space with restricted access.
- ✘ Ventilation is maximized during cleaning and disinfecting to the extent feasible. If using air conditioning, use the setting that brings in fresh air. Replace and check air filters and filtration systems to ensure optimal air quality.
- ✘ Enhanced cleaning of school premises is done when students are not at school with adequate time to let spaces air out before the start of the school day.
- ✘ Steps are taken to ensure that all water systems and sinks are safe to use after a prolonged facility shutdown to minimize the risk of Legionnaires' disease and other diseases associated with water.
- ✘ Restrooms, lobbies, break rooms, and lounges and other common areas are being disinfected frequently, on the following schedule:
 - Restrooms: before school, mid day, after school
 - Lobbies/entry areas: before school, mid day, after school
 - Teacher/staff break rooms: n/a
 - Class rooms before school, mid day, after school
 - Cafeteria dining area: outside area- before school, mid day, after school
 - Cafeteria food preparation area: n/a
 - Front office: n/a
 - Other offices: n/a
 - Other areas: outdoor tables and chairs- before school, mid day, after school

- Measures are in place to ensure use of appropriate face coverings by all staff, students and visitors at all times. These must include (check all that apply):
 - ✘ Staff, parents and students are informed of the requirement for cloth face coverings prior to the start of school and on a regular basis throughout the school year.
 - ✘ All students over age 2 are required to wear cloth face coverings at all times while on school property except while eating, drinking or carrying out other activities that make that preclude use of face coverings.
 - ✘ Alternative protective strategies may be adopted to accommodate students who are on Individualized Education or 504 Plans and who cannot use or tolerate cloth face coverings.
 - ✘ Information is provided to staff, parents and students concerning proper use of cloth face covering including the need to wash cloth face coverings after each day's use.
 - ✘ Signage at the entry to the school, at the entry to the school office and throughout the school building reinforces this requirement and the depicts proper use of cloth face coverings.

- ✘ As feasible, two cloth face coverings are provided to each student at the start of the school year. If that is not feasible, parents and students are given information concerning methods for making their own cloth face coverings.
- ✘ Parents of younger children are encouraged to provide a second face-covering for school each day in case the one a child is wearing gets soiled; this would allow for a change of the face covering during the day.
- ✘ Staff who are deployed at school entry or in hallways or other common areas to reinforce physical distancing also remind students of rules concerning use of cloth face coverings.
- ✘ Employees engaged in activities (such as provision of physical therapy or personal assistance to individual students) which may not permit physical distancing are equipped with appropriate personal protective equipment (gloves, masks, gowns, etc.), as appropriate.
- ✘ Staff taking care of a sick student are provided with a medical grade mask to wear themselves, and a medical grade mask for the student to wear (if it can be tolerated) until the student leaves the building.

NOTE: Staff and students who are alone in closed offices, walled cubicles or other private, enclosed spaces are not required to wear cloth face coverings. Students may also remove cloth face coverings when eating or napping or when wearing a cloth face covering is otherwise impracticable (e.g., while showering, etc.). The school may consider whether it is appropriate for a teacher in the early grades to use a plastic face shield with a tucked-in drape below the chin as a substitute for a cloth face covering to enable the youngest students to see their teacher's face and avoid potential barriers to phonological instruction.

✘ Measures are in place to ensure frequent hand washing by staff, students and visitors. These must include (check all that apply):

- ✘ Students and staff are given frequent opportunities to wash their hands for 20 seconds with soap, rubbing thoroughly after application, and use paper towels (or single-use cloth towels) to dry hands thoroughly. Each cohort is required to use a designated bathroom; should more than one cohort be assigned to use the same bathroom, a color-coded system is used to minimize students from different cohorts using the bathroom at the same time.
 - ✘ Younger students are regularly scheduled for frequent mandatory handwashing breaks, including before and after eating, after toileting, after outdoor play, and before and after any group activity.
 - ✘ Staff are instructed to model frequent handwashing, especially in lower grades where bathroom time is an opportunity to reinforce healthy habits and monitor proper handwashing.
- o/a Portable handwashing stations have been placed near classrooms to minimize movement and congregations in bathrooms to the extent practicable.
- ✘ Ethyl alcohol-based, hand sanitizer is made available to students and staff at strategic locations throughout the school where there is no sink or portable handwashing station (in or near classrooms, rooms in which support services are provided, music and art rooms). Ethyl alcohol is preferred and should be used when there is the potential of

unsupervised use by children. Isopropyl hand sanitizers are more toxic and can be absorbed through the skin.

- ✘ Hand sanitizer based on isopropyl alcohol is not used in the school given its potential toxicity and hand sanitizer is not out in the open in classrooms of children under age 9. Faculty and staff have been made aware of the risk of ingestion and that they should call Poison Control at 1-800-222-1222 if there is reason to believe that a student has consumed hand sanitizer.
- ✘ Hand sanitizer, soap and water, tissues and trash cans are available at or near the entrance of the facility, at reception, and anywhere else inside the workplace or immediately outside where people have direct interactions.

Measures are in place to ensure infection control in the school cafeteria or other site at which food is served or picked up.

- ✘ Buffet and family style meals have been eliminated.
- ✘ Food options include prepackaged meals, hot meals served by cafeteria staff and/or food brought by students from home.

n/a Physical barriers are in place where needed to limit contact between cafeteria staff and students.

- ✘ Optional-Describe other measures: We are only allowing food from home and no sharing
-

D. MEASURES THAT COMMUNICATE TO THE CAMPUS COMMUNITY AND THE PUBLIC

Information was sent to parents and students prior to the start of school concerning school policies related to (check all that apply):

- ✘ Isolation and quarantine policies as they apply to students who have symptoms or may have been exposed to COVID-19 x
- ✘ Options for COVID-19 testing if the student or a family member has symptoms or has been exposed to COVID-19 x
- ✘ Who to contact at the school if student has symptoms or may have been exposed x
- ✘ How to conduct a symptom check before student leaves home x
- ✘ Required use of face coverings x
- ✘ Importance of student compliance with physical distancing and infection control policies x
- ✘ Changes in academic and extracurricular programming in order to avert risk x
- ✘ Changes in school meals in order to avert risk x
- ✘ School policies concerning parent visits to school and advisability of contact the school remotely x
- ✘ Importance of providing the school with up-to-date emergency contact information including multiple parent contact options x

✕ Other:

no use of microwave or fridge at school. Ice packs should be provided from home

- A copy of this protocol is posted at all public entrances to the school.
- Signage has been posted throughout the school reminding staff and students of policies concerning physical distancing, use of face coverings, and importance of hand washing.
- Signage is posted at each public entrance of the school informing visitors that they should not enter the facility if they have symptoms of COVID-19.
- The school has developed and circulated a communication plan in case full or partial closure is required due to a possible cluster of COVID-19 cases.
- Online outlets of the school (website, social media, etc.) provide clear, up-to-date information about building hours, visitation policies, changes in academic and extracurricular programming, and requirements concerning use of face coverings, physical distancing and hand washing.
- Online outlets instruct students, parents and teachers on how to contact the school in case of infection or exposure.

E. MEASURES THAT ENSURE EQUITABLE ACCESS TO CRITICAL SERVICES

- A plan for updating Individualized Education Plans (IEPs) and 504 Plans of students with special needs has been developed to ensure that education can continue without undue risk to the student.
 - This plan includes a method for proactive school contact with parents at the beginning of the school year to assure that issues related to the child's education and safety are being addressed.
 - Modifications to individual IEPs and 504 plans may involve remote learning, modifications to the classroom to accommodate student needs, school attendance in a separate area with few students, or a hybrid approach combining in-class and remote learning.
 - Steps taken to modify IEPs and 504 plans to assure student safety comply with relevant provisions of state and federal law.
- Administrative services or operations that can be offered remotely (e.g., class registration, form submission, etc.) have been moved on-line.

**COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER**
